MEMORANDUM FOR THE WHITE HOUSE STAFF SECRETARY AND CABINET SECRETARY
November 6, 2017

FROM: Scott Hommel, Chief of Staff, U.S. Department of the Interior
SUBJECT: Interior Department Weekly Update for the Week of November 6, 2017

DOI 30-Day Policy Look Ahead

Presidential Initiatives and Awareness

1. **CRITICAL MINERALS REPORT:** USGS will release a new report presenting resource and geologic information for 23 critical mineral commodities important to our national economy and national security, many of which are sourced entirely outside of the United States. This is the first update since the last assessment undertaken in 1973. Staff Secretary is circulating a draft Executive Order (EO) directing Interior to help coordinate the appropriate agencies to undertake a government-wide approach to facilitate the domestic mining and processing of critical minerals. The Department is continuing to hold the release of the study to be issued in conjunction with the EO. DOI is awaiting the scheduling of the EO issuance.

Timing: November 2017

2. **KING COVE LAND EXCHANGE:** Interior plans to exchange a 500-acre corridor through Izembek National Wildlife Refuge with the King Cove Corporation, an Alaska Native corporation. Through a separate agreement with the state, this will result in a road connecting the fishing community of King Cove with an airport capable of handling jet aircraft used for medical evacuations, which will improve the health, safety, and quality of life for residents. This is a critical issue to Senator Murkowski, Senator Sullivan, and Congressman Don Young. Interior has submitted a scheduling proposal for POTUS to announce the land exchange during the White House Tribal Leaders Summit the week of November 13th.

Timing: Week of November 13, 2013

3. **MEMORIAL BRIDGE PROJECT AND REBUILD THE PARKS INITIATIVE:** The Secretary has worked with NEC and OMB on legislative language to create an account funded by energy revenues that would address the \$11.5 billion in backlog in the National Park Service and Fish and Wildlife Service Refuge maintenance. NEC has agreed to include this language in the infrastructure bill. The Secretary believes POTUS or VPOTUS should call on Congress separately to address the backlog. Senator Alexander has tentatively agreed to introduce legislation after this occurs. We will submit a request that POTUS or VPOTUS announce this initiative with the Arlington Memorial Bridge as the backdrop. The National Park Service (NPS) is ready to award the contract for the bridge by November 14. NPS has secured all funding (\$227 million) for a complete rehabilitation under budget and in a single phase rather than multi-phase. This would be an ideal backdrop to show the Trump Administration is doing all it can to fix America's infrastructure, but that Congress needs to do its part to restore and rebuild the parks. We will submit a scheduling request to Cabinet Affairs offering November 9 as an ideal date.

Timing: November 14-17, 2017

4. **BOEM DRAFT PROPOSED PLAN:** On November 17, BOEM aims to publish the Draft Proposed Program (DPP) for the new National OCS Oil & Gas Program. Publication of the DPP is the first opportunity for the Administration to share proposed leasing areas with the public. Publication of the DPP follows the Request for Information that was published on July 3, in response to which BOEM received over 815,000 comments.

5. **INTERIOR DISASTER RELIEF PROPOSAL:** Interior has submitted a proposal for the President's consideration to call on Congress to give him the authority to lift environmental restrictions on resource-abundant lands to help develop construction materials to rebuild after a Presidential-declared disaster. This proposal was submitted as a part of the National Security Council request for proposals. Interior is also working with OMB to submit legislative language to the supplemental appropriations bill.

Interior has also submitted specific monument recommendations for Bears Ears National Monument (BENM) and the Grand Staircase Escalante National Monument (GSENM) to OLC for the form and legality review. Finally, Interior has submitted a scheduling request that POTUS travel to Utah to sign the proclamations for the BENM and GSENM. The Secretary has discussed this with the President.

- **King II Mine Modification:** In mid- to late fall, BLM-CO expects to issue a decision on whether to modify GCC Energy's King II Mine in Montezuma County in southwest Colorado by 951 acres. The modification would allow GCC to access an estimated 4.66 million tons of recoverable Federal coal reserves for an additional 6.5 years of mining. Montezuma County supports the modification, noting Federal mineral development's positive impacts on the region through jobs and tax revenue. The BLM hopes to issue the decision this fall, pending final approval from the Department.

3. NON-SUBSISTENCE TAKE RULE TO BE NULLIFIED: Under the Congressional Review Act (CRA), Congress passed, and the President signed, a resolution of disapproval of the U.S. Fish and Wildlife Service rule titled "Non-subsistence Take of Wildlife, and Public Participation and Closure Procedures, on National Wildlife Refuges in Alaska" (non-subsistence take of wildlife rule). By operation of the CRA, the non-subsistence take of wildlife rule shall be treated as if it had never taken effect. However, because the CRA does not direct the Office of the Federal Register to remove the voided regulatory text and reissue the pre-existing regulatory text, the U.S. Fish and Wildlife Service is issuing a notice to effect the removal of any amendments, deletions, or other modifications made by the nullified rule and the reversion to the text of the regulations in effect immediately prior to the effective date of the non-subsistence take of wildlife rule.

Throughout this process, the NPS will consider the purpose of Secretarial Order 3347 (“Conservation Stewardship and Outdoor Recreation”) to advance conservation stewardship and increase outdoor recreation opportunities, including hunting and fishing, for all Americans. The NPS will also identify ways to improve recreational hunting and fishing cooperation, consultation, and communication with State of Alaska wildlife managers. The NPS will comply with all applicable laws governing the rulemaking process, including the requirement to provide an opportunity for public comment on any proposed regulatory changes under 5 U.S.C. 553. The Department's Bureau of Reclamation has a participation interest in the power generated by the plant and thus the Administration has a role in decisions associated with the plant. Interior is facilitating a process being led by Peabody Energy and Lazard (investment banking) to identify a possible future owner(s) to keep the plant generating power post-2019, since the current utility owners will exit the plant at the end of 2019. The comment period for the NGS Extension Lease Environmental Assessment ended on Friday, November 3. Reclamation and the Bureau of Indian Affairs are currently considering any relevant comments received during the comment period and anticipate issuing a Finding of No Significant Impact (FONSI) by December 1.

The content of the presentations will include descriptions of why the assessment is being done, what methods are being used, and specific documentation of the geological interpretations that form the foundation of the assessment. Meetings currently in progress focus on two geological formations in which significant oil discoveries have been announced in the past two years: the Nanushuk and Torok Formations. The Nanushuk Formation hosts two new discoveries, Pikka–Horseshoe and Willow. The assessment is tentatively scheduled for December 2017.
